 Right onto Odom Road (.6 miles)  
 Left onto Reese Road (1.2 miles)  
 Right onto McIntosh Trail (1.2 miles)

# Coweta County *Bike Routes* ::

## Enjoy your ride through...

# Welcome to Coweta County Bike Route System::

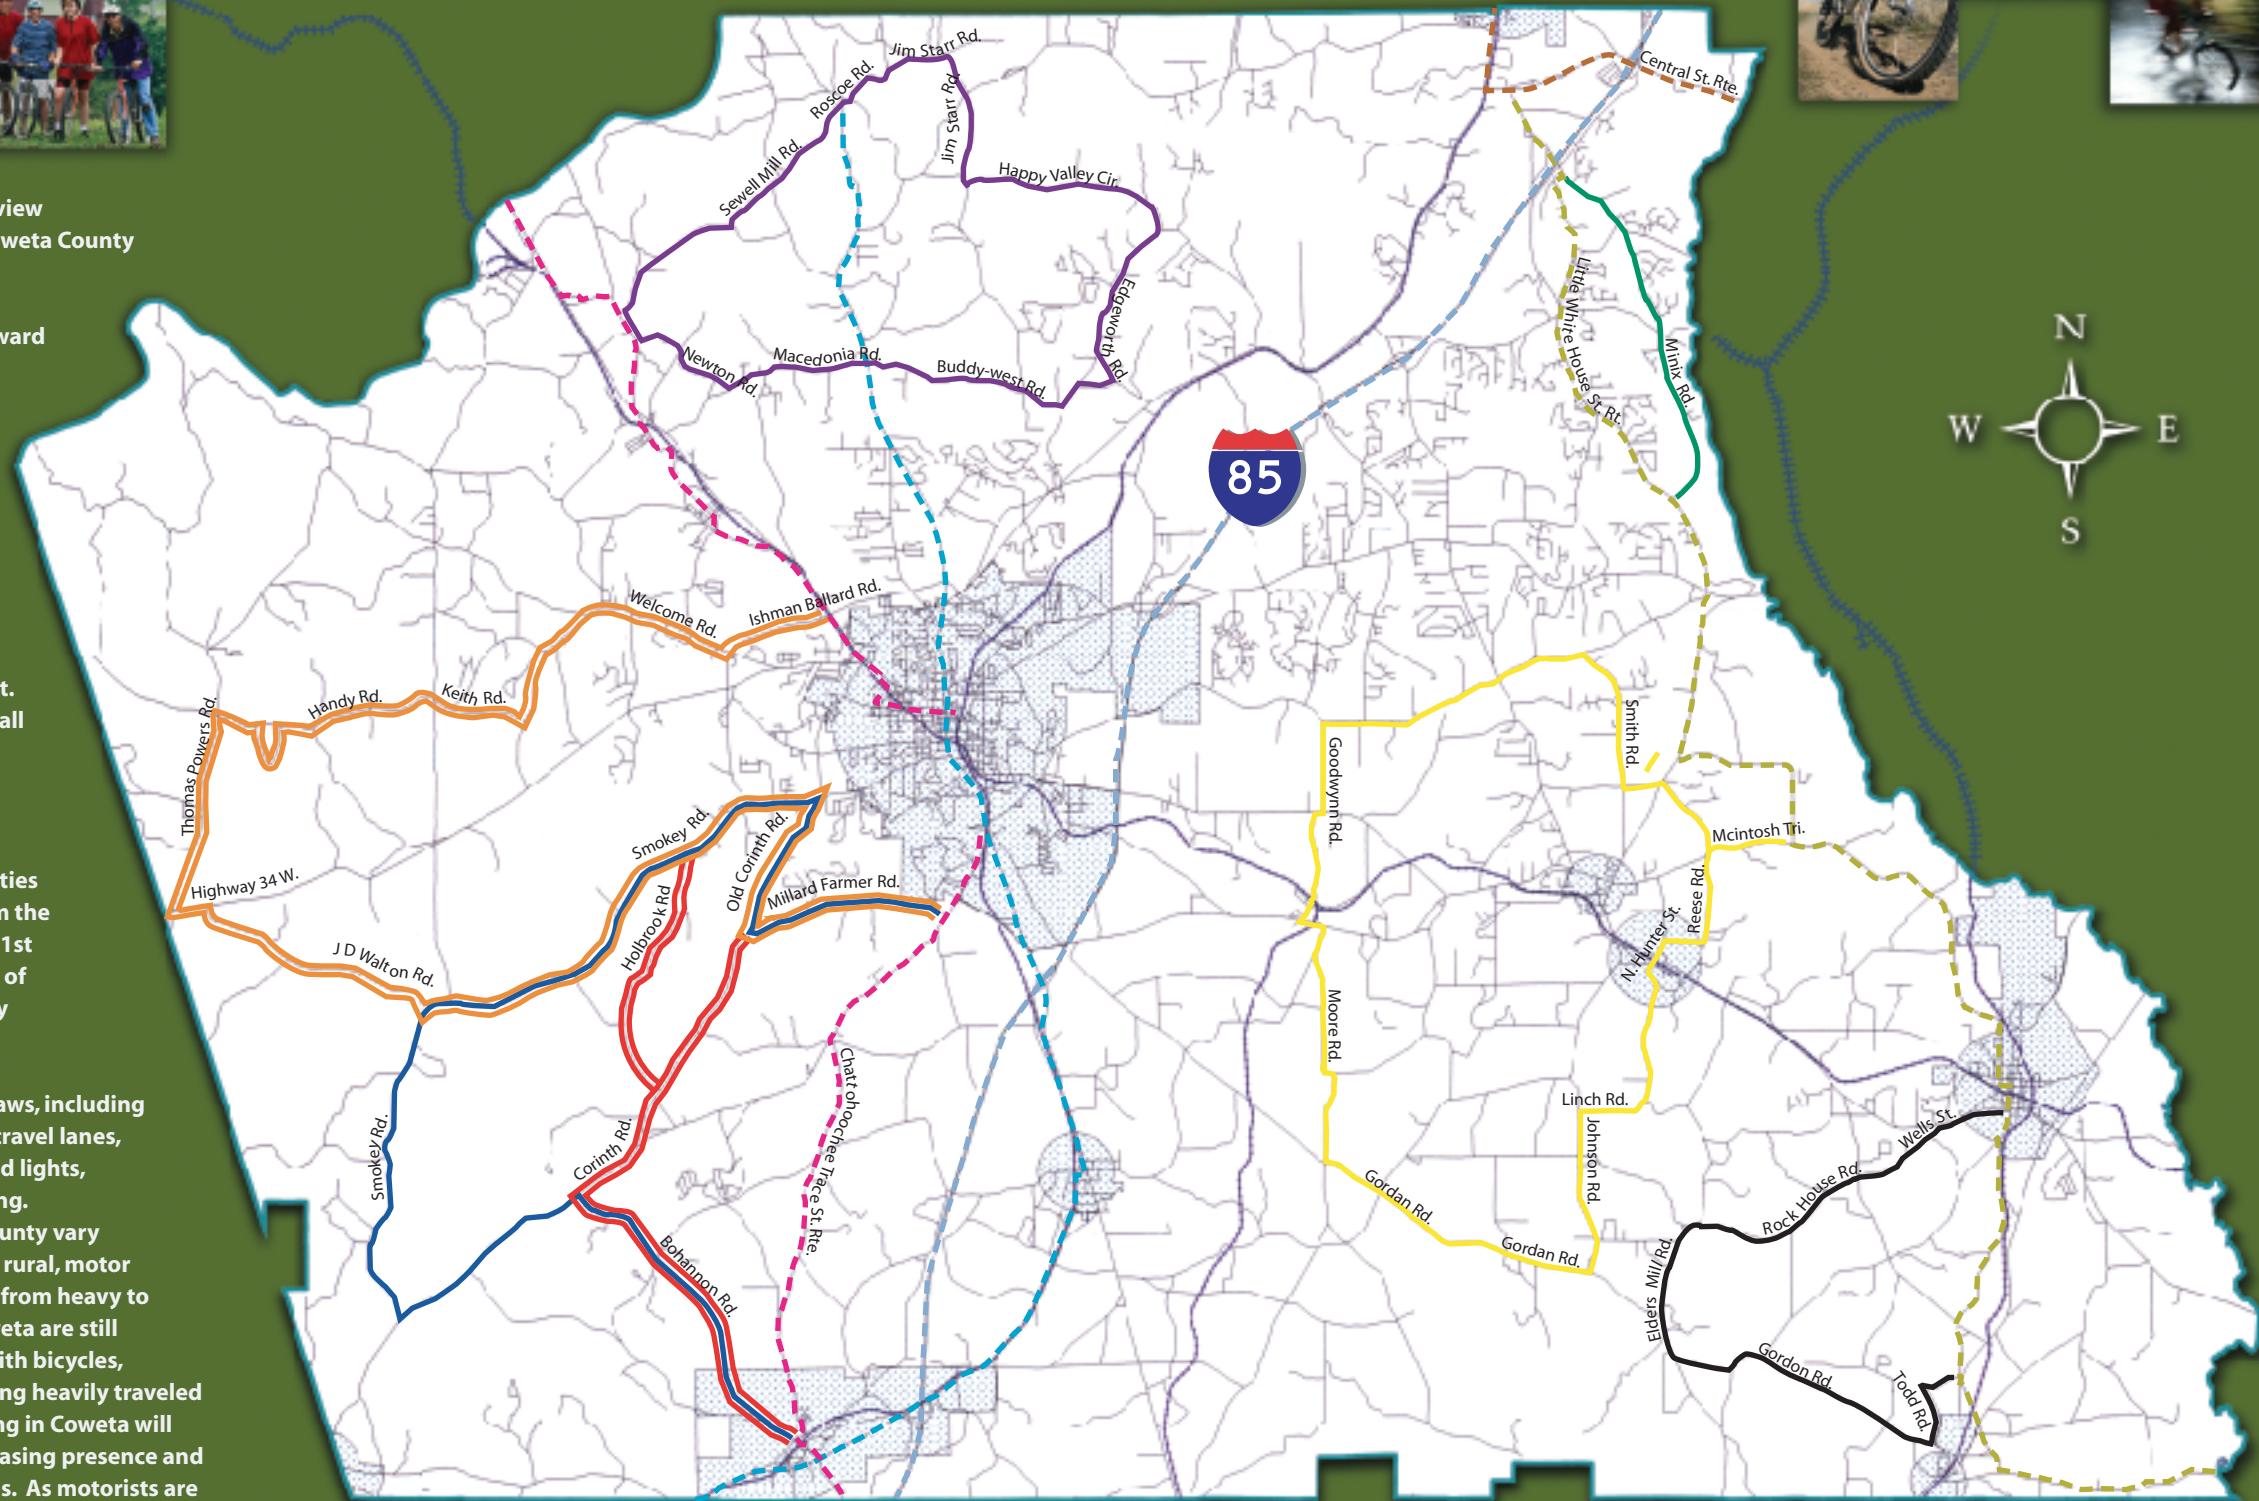

This brochure provides an overview of the routes and signage in the Coweta County Bicycle Route System.

The Coweta routes are oriented toward average recreational riders. Characterized by rolling hills, the routes generally follow the County's lightly traveled network of rural and minor roads.

Each route intersects with at least one of the three state-sponsored routes that cross the County. Motor vehicle traffic conditions in the County vary from heavy to light. To ensure your safety, please obey all traffic laws.

Planning and development of the Coweta bicycle route system signs, brochures, and parking facilities was made possible by funding from the Transportation Equity Act for the 21st Century (TEA-21), U.S. Department of Transportation, and Coweta County Board of Commissioners.

As a cyclist, please obey all traffic laws, including riding toward the outside edge of travel lanes, stopping at all intersections and red lights, and properly signaling when turning. As development patterns in the County vary from intensely suburban to mostly rural, motor vehicle traffic conditions may vary from heavy to light. Because some drivers in Coweta are still unfamiliar with sharing the road with bicycles, riders should use caution when using heavily traveled thoroughfares. The state of bicycling in Coweta will undoubtedly benefit from an increasing presence and visibility of cyclists on County roads. As motorists are acclimated to the idea of sharing space, safety will improve.
